Presentation of the new innovation platform, international networks and innovation

In line with the congress for sustainable building BAUZ! [BauZ! 2023 - BauZ!](#) this workshop is dedicated to the presentation of a **new international digital open innovation platform: the European innovation platform METABUILDING**. The Metabuilding Platform addresses stakeholders of the extended **construction sector** and supports in finding available funding for SME innovations, innovative technologies and presents products/services of SMEs virtually, brings together partners for collaborative projects and offers to reach new markets.

Furthermore, you will learn about new opportunities, innovation possibilities, finding partners and get to know funding opportunities and networks. Addition winner projects from 6 countries from the Innovation Call GROW-HARVEST are presented.

What makes the platform special: the linkage of innovators in construction and the 4 emerging industry sectors:

- **Recycling and circular economy,**
- **additive manufacturing and 3D printing,**
- **nature-based solutions**
- **and digital Industry.**

International guests will be able to participate online!
