№ \_\_\_\_\_

To the President of the European  
Federation of Green Roofs and Walls  
Mr. Dusty Gedge

Dear Mr. Gedge!

I would like to take this opportunity to present my compliments and emphasize that the city of Kyiv greatly appreciates the desire of the European Federation of Green Roofs and Walls to contribute to the greening of our city and sincerely hopes for our fruitful cooperation in the future.

Kyiv is constantly looking for nature-based solutions and partners to implement them. Projects to restore our city using green technologies are significant to us because they indicate the desire and intention to make Kyiv a better and greener place even in such difficult conditions. In addition, such projects raise the spirits of Kyiv residents and visitors to our capital, which is selflessly resisting unprecedented russian aggression.

With this letter, I am asking you to consider supporting the implementation of a project to vertically green the wall of one of the selected buildings in Kyiv (the list of locations for the wall will be provided separately). Given the difficult economic situation caused by the full-scale invasion of Ukraine by the russian federation, Kyiv does not currently have the resources to implement such a project on its own. Thus, we see it as a patronage project.

For its part, the city undertakes to facilitate the implementation of this project as much as possible, taking care of all organizational aspects. In addition, we will be happy to provide strong media support, focusing the attention of Ukrainian and international audiences on the fact that the project was implemented with the assistance and at the expense of partners.

The city of Kyiv has a sincere desire to make our future cooperation long-lasting and beneficial for both parties.

Best regards,

The Deputy Head  
of the Kyiv City State Administration

Petro PANTELEEV

Oleksandr Voznyy 366-64-10
